## WORK EXPERIENCE

### BPOSeats.com, Cebu, Philippines — Frontend Developer(Contract)

Bposeats [🔗](#)

02/2020 - Present

Cebu, Philippines

BPOSeats.com is a seat leasing company based in the Philippines. For the time I've been working there, I've:

#### Achievements/Tasks

- Built a video conferencing feature using WebRTC and AWS Kinesis video streams. Clients are using this feature to do interviews and carry out meetings with staff.
- Build a geo-fencing feature using Google maps which allowed employees to only time in if they were in the designated office geographical area.

Tech used : Vue, Vuex, Sass, AWS, WebRTC, Gitlab, Mattermost, Figma

### Software web developer (Contract) Rockwood property management

02/2019 - 12/2020

Kampala, Uganda

Rockwood is a property management company in Kampala (U). While there, I implemented a fully managed property management system

#### Achievements/Tasks

- Implemented a contract module using the PHP fpdf library which helps Rockwood amend and auto-generate new tenant contracts.
- I implemented an online Rental payment feature that enables tenants make rental payments online with VISA and Mobile money using the Wave payment API.

Tech used : Vuex, Vue, Firebase, NodeJs, MYSQL, AWS, Gitlab

### Software web developer (Contract) Kazinga Channel Office World Limited [🔗](#)

04/2017 - 01/2018

Kampala, Uganda

Kazinga Channel Office World Ltd is one of the leading companies for Office equipment and IT solution & Services in Uganda for over 26 years.

#### Achievements/Tasks

- Developed a jobsheet management system for Kazinga which helps kazinga keep track of all equipments sold, equipment warranties, servicing and sales made by every sales person.

Tech used : Vue, vuex, AWS, PHP Laravel, MYSQL.
